## WISCONSIN STATUTES

### PUBLIC INSTRUCTION

#### CHAPTER 118: GENERAL SCHOOL OPERATIONS

##### **118.075 Indoor environmental quality in schools.**

(1) Definition. In this section, "task force" means the indoor environmental quality in schools task force established under sub. (2).

(2) Task force.

(a) The state superintendent shall establish a special committee under s. 15.04 (1) (c) called the indoor environmental quality in schools task force. The task force shall consist of the following members:

1. The state superintendent or his or her designee.
2. The secretary of safety and professional services or his or her designee.
3. The secretary of health services or his or her designee.
4. One member who is a representative of the Wisconsin Association of School Boards.
5. One member who is a representative of the Wisconsin Association of School District Administrators.
6. Three members who are representatives of the Wisconsin Association of School Business Officials and who have expertise in indoor environmental quality in schools.
7. One member who is a representative of the Wisconsin Council of Religious and Independent Schools.
8. One member who is a representative of the Wisconsin Association of School Nurses.
9. One member who is a representative of the largest statewide labor organization representing teachers.
10. One member who is a representative of the largest statewide organization representing parents of pupils.
11. One member who is an occupational health physician or allergist and who has expertise in indoor environmental quality in schools.
12. One member who is registered as an architect under ch. 443 and who has expertise in school design and construction.
13. One member who is registered as a professional engineer under ch. 443 and who has expertise in the design of mechanical systems for schools.
14. Two members who are **industrial hygienists certified** by the **American Board of Industrial Hygiene** and who have expertise in indoor environmental quality in schools.

#### **CHAPTER 163: CERTIFICATION FOR THE IDENTIFICATION, REMOVAL AND REDUCTION OF LEAD-BASED PAINT HAZARDS**

##### **DHS 163.24 Training manager and instructor approval.**

(1) Requirement for approval. No individual may function as a training manager or principal instructor of an accredited training course without being approved by the department under this section.

(2) Training manager.

(a) Qualifications. A training manager shall have demonstrated experience, education or training in the construction industry, which may include lead or asbestos abatement, painting, carpentry, property maintenance, renovation, remodeling, engineering, environmental consultation, occupational safety and health or **industrial hygiene** and shall have one of the following:

1. At least 2 years of experience, education or training in teaching workers or other adults.
2. A bachelor's or graduate degree in building construction technology, engineering, **industrial hygiene**, safety, public health, education, business administration, program management or a related field.
3. Two years of experience in managing a training program specializing in environmental hazards.

(3) Principal instructor.

(a) Qualifications.

3. `Experience.' During the 5 years preceding application to the department for principal instructor approval, an applicant shall have one year of direct responsibility for one of the following areas:

a. For approval to teach courses for lead hazard reduction, lead-safe renovation or project design disciplines, direct responsibility for activities involving lead hazard reduction, lead health effects, lead regulations, **industrial hygiene** activities involving lead, construction or renovation of homes or other buildings, painting, weatherization, rehabilitation or home improvement, lead worker protection or abatement relating to other hazardous materials.

b. For approval to teach courses for lead identification disciplines, direct responsibility for activities involving lead sampling, lead inspections or risk assessments, lead health effects, public or occupational health care, lead regulations, enforcement of environmental regulations, environmental investigations, building inspections, **industrial hygiene** activities involving lead, weatherization, rehabilitation, renovation or home improvement or identification activities relating to other hazardous materials.

c. For approval to teach any type of course, direct responsibility for instructing adults in work-related courses. The department shall evaluate qualifications in relation to the topic or topics that the applicant will teach.
